- Fitness Enthusiast
- Pencil Sketch Artwork

Full Stack Web Developer | Freelancer

2024 – Present

- Developed responsive and dynamic web applications using React, HTML, CSS, and Tailwind, ensuring clean UI and smooth user experience.
- Built backend functionalities using Python and Django, including API development, data handling, and integration with frontend systems.
- Managed full project lifecycle from requirement gathering to deployment, delivering scalable and client-focused web solutions.
- Designed and implemented reusable components and optimized code structure for better performance and maintainability.
- Integrated frontend and backend systems, ensuring seamless data flow and efficient application functionality.
- Collaborated directly with clients to understand business needs and translate them into practical technical solutions.

Assistant Manager | La Colours

Aug 2024 – Aug 2025

- Managed complete production flow from raw material to finished goods, ensuring smooth coordination between cutting, stitching, and packing departments.
- Monitored and controlled inventory levels including fabric, finished products, and dispatch stock, reducing wastage and improving stock accuracy.
- Generated and maintained daily, weekly, and monthly reports covering production, stock movement, and financial data for better decision-making.
- Handled accounting tasks including billing, expense tracking, and payment coordination alongside operational responsibilities.
- Led and supervised a team across multiple departments, improving productivity, maintaining discipline, and ensuring timely order completion.
- Streamlined workflow processes to optimize production efficiency and reduce delays in manufacturing and dispatch.

Account Executive | Sarra Fab International Pvt. Ltd.

Jan 2019 – Jul 2024

- Managed end-to-end accounting operations including bookkeeping, ledger maintenance, and financial record accuracy to ensure smooth daily business transactions.
- Handled bank reconciliation, cash flow tracking, and expense monitoring to maintain financial stability and prevent discrepancies.
- Prepared and maintained GST records, invoices, and compliance documents while ensuring timely filings and adherence to financial regulations.
- Coordinated with internal teams and vendors for billing, payments, and account settlements, improving overall financial workflow efficiency.

EDUCATION

Bachelor of Computer Applications

Dec 2024

Indira Gandhi National Open University

12th Science

Jun 2018

Gyan Jyot Hindi Vidyalaya

10th Science

Mar 2016

Gyan Jyot Hindi Vidyalaya

CIRTIFICATION

Full Stack Python Developer

Nov 2026

TOPS Technologies, Surat

SKILLS

Front-end: HTML, CSS, JavaScript, React.js, Tailwind,

Backend: Python(Django), MySQL,

Tools: Antigravity, VSCode, Git & GitHub, Cursor

AI Tools: Gemini, ChatGPT, Claude,

Cognitive Skills: Teamwork, collaboration, problem-solving, Leadership, Time management, Good Communication

PROJECTS

Bastion Research <https://bastionresearch.in/> • Live

Jul 2025 – Sept 2025

- Developed a full-stack stock analysis and recommendation platform using React (Vite), Tailwind CSS, and Node.js for scalable web applications.
- Integrated Supabase for authentication and database management, implementing secure user login, session handling, and role-based access control.
- Built user-specific dashboards delivering personalized stock recommendations (Buy, Hold, Sell) based on user data and interaction.
- Implemented third-party API integrations, including KYC verification, Substack, and Mailchimp, for seamless onboarding, communication, and email automation.
- Designed and developed an admin panel with advanced analytics, including interactive graphs to monitor user activity, engagement, and platform performance.
- Created a dynamic content management system enabling admins to manage stock insights, research content, and user data in real time.
- Ensured smooth frontend-backend integration using REST APIs for efficient data flow and real-time updates.
- Optimized UI/UX using Tailwind CSS and reusable React components, leveraging AI-assisted tools to enhance design efficiency and consistency.
- Utilized AI tools like ChatGPT and Claude to accelerate development, assist in code structuring, and improve data visualization logic for analytics dashboards.
- Implemented secure data validation, authentication flows, and protected routes to enhance application security and reliability.
- Built a real-world fintech-style platform combining modern web technologies with AI-assisted development for scalable architecture and improved productivity.

Sarda Chemical Corporation <https://sardachemicalcorporation.com/> • Live

Jan 2024 – Jan 2024

- Developed a responsive business website using HTML, CSS, JavaScript, and Bootstrap to showcase company profile and products.
- Designed clean and structured layouts for better readability and professional presentation.
- Implemented responsive design to ensure smooth experience across mobile and desktop devices.
- Added basic interactivity and optimized performance for faster loading and improved user experience.

Portfolio Website <https://ordinarycoder.com/> • Live

Jul 2025 – Present

- Developed a full-stack personal portfolio using React (Vite), Tailwind CSS, Node.js, and Supabase to showcase projects, skills, and professional details.
- Built dynamic sections with database integration, enabling real-time updates for projects, experience, and content management.
- Designed a modern, responsive UI using Tailwind CSS, ensuring clean layout and smooth user experience across devices.
- Implemented reusable components and optimized application structure for performance and scalability.
- Leveraged AI-assisted development using tools like ChatGPT, Claude, and Gemini to improve development speed, UI ideas, and code efficiency.
- Explored modern development environments such as Cursor and Visual Studio Code to enhance productivity and workflow.
- I use AI tools to speed up development and explore better solutions, but I make sure I understand and implement everything myself.
